

TVR101 Car Storage

We are ideally located just outside Farnham on the Surrey/Hants borders, in close proximity to the A3, A31, M3 and M25. London, the South Coast and Farnborough Airport are all within easy reach, as is Goodwood. Our brand new purpose built storage facility has 24hr recorded external and internal CCTV monitoring. The secure unit is located next to our main TVR101 Service and Restoration Centre and the entire compound is steel fenced and gated. Being next to our main unit means we have fully trained and experienced vehicle technicians on hand to service your car as appropriate or remedy any issues. We can also arrange an MOT when needed. On arrival your car will be thoroughly checked over and the condition recorded. It will be allocated a space and number, connected to a battery conditioner and protected with our bespoke TVR101 soft breathable cover.

With 24 hours' notice your car can be picked up Monday-Friday 8am-5pm and Saturday 8am-12pm, and outside those hours by previous agreement. We can also offer collection and delivery of your vehicle to and from our storage unit (with reasonable prior notice provided).

We have decades of experience in the automotive industry, and with our onsite vehicle technicians we believe we can offer a unique car storage facility, giving you reassurance and peace of mind for your pride and joy.

Weekly Cost for storage £35 + VAT

Unit 1 Halfway Farm, Dockenfield Road, Bucks Horn Oak
